FULL STACK DEVELOPER (MERN)

SUMMARY

Results-oriented Full Stack Developer with 5+ years of experience in building dynamic, scalable web applications. Expert in the MERN stack (MongoDB, Express.js, React, Node.js) with a strong background in frontend and backend integration. Proven track record of delivering high-quality solutions for diverse clients, optimizing web performance, and collaborating effectively in agile environments to meet strict timelines.

TECHNICAL SKILLS

- **Languages**: JavaScript (ES6+), HTML5, CSS3, Sass/SCSS.
- **Frontend**: React.js, Redux.js
- **Backend**: Node.js, Express.js.
- **Databases**: MongoDB
- **Tools & Testing**: GitHub, Jest, CLI, Bootstrap

WORK EXPERIENCE

Independent Full Stack Developer | Freelance Dubai, UAE | 2025 – Present

- *Architected and deployed 10+ fully responsive websites and web applications, ensuring 100% client satisfaction.*
- *Implemented SEO best practices and performance optimization techniques, resulting in faster load times and improved search rankings.*
- *Managed the full software development lifecycle (SDLC) from initial requirement gathering to final deployment and maintenance.*

Full Stack Developer | ITexperts | 2022 – 2025

- *Developed and maintained robust web applications using React, Node.js, and MongoDB, ensuring scalable and secure code.*
- *Collaborated closely with UI/UX designers to translate wireframes into pixel-perfect, interactive components, enhancing user experience.*
- *Partnered with backend teams to integrate APIs and optimize database queries for seamless performance.*
- *Played a key role in project management, consistently delivering software solutions within deadlines*

Frontend Developer | Dream Web Development WLL | 2020 – 2022

- *Led frontend development initiatives, translating complex UI/UX designs into responsive, cross-browser compatible code.*
- *Improved application interactivity and visual appeal using modern JavaScript libraries and CSS pre-processors.*

KEY PROJECTS

- **Online Store Platform (E-commerce):**
- Developed a comprehensive e-commerce application featuring customizable product options, shopping cart functionality, and multi-currency payment support.
- *Tech Stack:* React.js, Redux, Node.js, MongoDB.

- **Furniture Retail Catalog:**
- Built an interactive online catalog for a furniture retailer, showcasing detailed product displays with advanced filtering and search capabilities
- Tech Stack: React.js, CSS3, Firebase.

- **Staff Information System (Internal Tool):**
- Created a centralized management system to track employee details, positions, onboarding dates, and payroll data, streamlining HR processes.
- *Tech Stack:* MERN Stack (MongoDB, Express, React, Node)

Company Management Portal:

- Developed a corporate portal including project management tools, secure file sharing, and strategic planning modules.
- *Tech Stack:* React.js, Node.js, Express.js.

- **Interactive Task Management Platform (Trello Clone):**
- Designed and engineered a highly interactive Kanban-style project management tool featuring smooth drag-and-drop functionality for task organization.
- *Implemented Optimistic UI updates to ensure zero-latency user interactions while syncing data with the backend in the background.*
- Utilized advanced state management to handle complex nested data structures (boards, lists, cards) efficiently.
- Tech Stack: React.js, Redux Toolkit, React Beautiful DnD, Styled Components, Node.js.
